October 2007

Happy Fall, Everyone!

What gorgeous days and nights we are having! The Fall Equinox has come, the vegetables are ripe, and the squirrels are planting for winter.

I finally have some dates set and I'm very excited about what is planned. For those of you who have enjoyed my practice over the years, enjoy this!

There will be workshops in the mountains of Colorado, as well as other states and possibly Canada. The following pages list details of our upcoming classes and programs.

I am pleased to report that I have four new apprentices who will experience my customized program in *Dowsing and Earth Acupuncture*, which ends with certification. Currently, that program is full and no more applicants will be accepted.

I'm looking forward to all we will share.

Thanks for your support and referrals for all these years.

Please get outside and see the Light as it returns color to us, as this planet changes her position in the Play of the Planets. Enjoy Mother Nature's changes!

Fondly,

Karen
