February, 2005

Hello Everyone!

It is time for news from my practice! And please check out the workshops and specials that are going on. You will be able to find all of this on my website soon at www.KarenRiceKing.com.

The first week of March I will travel to Sante Fe for a reunion of the first class of the Teachers of Medicine for the Earth. The book with the same title by Sandra Ingerman has even more relevance today since the Tsunami in India and South East Asia this past December. There is much healing to do for this planet and many beings on her.

Shamanic journey work and soul retrieval has gone hand-in-hand with your chakra balancing in sessions. As I will be teaching an Introduction to Shamanism 2 or 3 times this year in hopes of preparing those of you who have expressed interest in a Medicine for the Earth weekend gathering. We need to qualify your journeying experience so as to guarantee your safety. If you have already started the book you will know the importance of this. the process of transmutation requires a journey to your own death and this naturally needs guided experience.

This is not something we take lightly. You must be under the supervision of a well trained teacher for this. The indigenous people, our ancestors, trained all the young folks as this journey is part of their Rite of Passage. No matter what your geneology is, or you heritage, we all have ancestors who lived in much more simple times than ours. We have a common thread, one that is often overlooked or ignored. One that, if we ever needed it, would come in handy.

In April and September of 2005, I will spend a week each month in Sante Fe again during the Teacher of Shamanism training. This knowledge base will be incorporated in my practice and workshops.

There are many theories about why the Tsunami happened. Perhaps, the truth will be revealed to you in your own meditations, prayers and journeys. I am well aware that your living your daily lives is a journey that requires courage, love, strength and imagination. I will suggest that no matter what you are currently focused on, please open your heart and mind and join me for one of my workshops.

I hope this year ahead if filled with much light and laughter.

Love,
Karen

WORKSHOPS:

SUNDAY, MARCH 13th

SPIRIT MENDING: A Free Talk and Demonstration

1:00 PM to 3:00 PM

the Lafayette Office

Please call for reservations, as space is limited.

During this time we will explore our own Aura and the energies that make it up. Depending on the group that gathers, we will have many areas to cover, such as Soul Retrieval and Earth Acupuncture. Karen will work on two or three participants in front of the group, in a confidential way. Think of it as a Healing Party! **Crystals and gems will be specially marked down for this event, if you are interested.**

SATURDAY, MARCH 19

INTRODUCTION TO SHAMANISM (all levels accepted!)

10:00 AM to 5:00 PM

Boulder location

\$100, credit cards accepted with paypal on the website.

Shamanism is an ancient practice which appreciates nature and utilizes the art of drumming, song and dance to raise the Spirits. Once focused, this energy can be used to heal all our wounds. You will journey with your Power Animal and your Guides and Teachers. The beauty of this workshop is that you will walk away with having experienced Divine Contact.

SATURDAY AND SUNDAY, MAY 14 AND 15

EARTH ACUPUNCTURE AND PENDULUM POWER

10:00 AM to 5:00 PM

Hwy. 287 and Arapahoe, Boulder County

\$300, credit cards accepted with paypal on the website

What a weekend we have planned for you! For the cost of the workshop we will send you home with a pendulum, compass, two books, training manual, dowsing rods and a bundle of rods to do your own home. Organic meals and snacks will be provided both days. You will gain experience in dowsing and learn to use a pendulum to answer questions for someone else. We will learn to journey to the Devic Realm and speak to the Spirit of this Home. By the end of the weekend, you will be trained in diagnosing the negative stress lines on properties. You will know how to install copper rods to relieve all these stresses. It's lots of fun and a mind expanding weekend. Incidentally, this can save you hundreds of dollars on your home or office.
