

Dearest Friends of MFTE - March, 2005

I want to thank all the group facilitators and the leaders for making this reunion as memorable as always!! It was a "moving and a' shaking time." And the wonderful work that Sandy is doing with the heart project. I know we all be excited to hear the results over the next year.

Now I've got a proposal for all of you. As Spirit has asked me to start teaching again, I offer my **Earth Acupuncture and Pendulum Power (with an introduction to Shamanism with Medicine for the Earth, work from Sandra Ingerman)**. **\$100 OFF both 2005 workshops** Boulder County and Steamboat Springs.

For those of you who don't know me personally, I had a disabling auto accident in 1991 that led me to Sandra Ingerman, Slim Spurling, Bill Reid and Melody. These folks were my mentors as I got back into alternative healing modalities and took the leap into private practice.

As my practice has grown and I am consulting with clients nationwide, with invitations to teach in Hawaii, the Caribbean, Germany and Japan, I feel so blessed to have peers such as you to consult with.

My guidance wants me to continue to have journeying an integral part of the Earth Acupuncture training. I offer an apprenticeship program for those who are so inclined.

So, for 2005 only two workshops in colorful Colorado are offered. The first this spring will be in the home of a friend who owns and practices in Across the Bridge Acupuncture in Boulder County. The second will be in Steamboat Springs at the home of an architect and builder who's designs have been mentioned in Architectural Digest.

So, \$100 OFF either workshop for your feedback. Or, host me in your area and get your home or work-space done for free, your training also for free and the benefits of a full paying participant. Of course, I'd like constructive feedback from you.

Well, the description of the workshop follows. Please, let me know. There will be at least one workshop in Colorado a year until further notice.

Much Light and Love to You and Yours! May this vernal equinox bring you the fulfillment of your visions. And thank you for all your wonderful work.
