Hello Everyone!

Mother Nature has graciously gifted us another beautiful, drought-free Spring. Our Spirit Journey workshop had 9 attendees and everyone had a very magical time.

On Tuesday evening, June 12th from 7:00-8:30p.m., I will hold my free talk and demonstration, **Spirit Mending**. This is an excellent time to gather with like-minded souls to talk about energy work, Indigenous practices and Earth Acupuncture. Bring a friend and as is the policy in my practice, if they become a client of mine, you will receive a **\$60 GIFT CERTIFICATE** for **any** services.

In celebration of the Summer Equinox, I will be facilitating a **FIRE CEREMONY** called “**BURN YOUR BLOCKS**”. Everyone who has had **SOUL RETRIEVAL** work is invited. And my new friend, Marianne Green, will be performing Sacred Sounds before and after the ceremony.

Let me explain a little further. Guests are welcome from 6:30 p.m. – 8:30p.m., Wednesday evening on the 20th of June. Please bring with you a totem, a **burnable** representation of an issue, or block, that you are ready to release. I am going to make myself available Saturday June 16th strictly for this event. If you have not experienced a traditional Soul Retrieval, you may want to plan a session before then.

On the night of the ceremony, you may dress as “ceremonially” as you wish. Please bring a drum, rattle or noise maker. There will be **NO ADMITTANCE** to my property past 7p.m., due to the nature of what we have planned. Light refreshments will be served afterwards, while Marianne Green plays Tibetan Bowls and other instruments from her **SACRED SOUND** Collection. Her CD will be available for sale. We will be collecting a \$20 per person donation to cover the expenses. A reservation is **required** as space is limited.

Recently I presented a talk on Real Estate investing and how Dowsing and Earth Acupuncture are key tools in the market today. There I made a new friend, Dale Rose with Keller Williams Front Range Properties. She will be hosting my workshop September 8th and 9th in **South Boulder**, where I will be addressing details of my Dowsing and Earth Acupuncture Apprenticeship Program. Remember, that you will go away from the weekend having learned how to work with the Spirits of properties, as well as a pendulum and dowsing rods. Also in the “package” you will take home a pendulum, compass, graph paper, dowsing rods, a **bundle** of rods pre-cut to do your own home, a set of Egyptian cut rods to cure your office, a training manual and a copy of Sandra Ingerman’s **Medicine for the Earth; How to Remove Environmental and Personal Toxins**. Meals and snacks will also be included in the cost. Many of you can take this as professional training!

I am thrilled to announce **NATURE JOURNEY: DOLPHINS Becoming your Power Animal** for October, 2008. We will travel with the fantastic folks from **WILDQUEST** for a week in late October. Staying in the same lovely hotel in Ft. Lauderdale the first night and going out to dinner together, we begin to form **our** own pod. We head out the next morning for the island of Bimini, 57 miles South-East in the Caribbean. Staying with WILDQUEST is very comfortable and we have healthy meals. Everyday we will be out to sea on their wonderful boat. Your snorkeling gear is included.

Edgar Cayce said that this area of the Bermuda Triangle is where Atlantis will rise again. We'll swim in the wild with dolphins every day. In the evenings after dinner we will experience, if you choose to, information regarding dolphins in cultures around the world. You will learn to communicate with dolphins during guided interchanges and journey in the evenings. As you swim with them the next day there will be ample opportunity to try out your communication.

Before we leave the area, you will swim over the Bimini Road on the ocean's floor. Scientists and researchers are mystified as to the road's origin and its significance as a sign of the future or the past.

I hope you will consider this fun and fascinating trip. There are only eighteen spots and we will need to fill the trip 3 months in advance to seal our spot with the crew. Please look at **WILDQUEST.COM** for more information as to their wonderful trips. The trip I will be facilitating will be set very soon. Please start asking the **DOLPHINS** if this is an adventure for you!

So as you can see, I am happily living my "work" and you will be hearing of more fun and spiritually "enlightening" events to look forward to.

I'm enclosing a flier for you to post on your calender or give to a practitioner, family member or friend.

As always, Love, Laughter and Lightness in your every step on your path,

Karen
